

DERRYK WHITNER

Cybersecurity Engineer

Pflugerville, TX 78660, United States

5106105012

dcwhitner@gmail.com

PROFILE

Cybersecurity and IT Operations professional with experience troubleshooting complex systems, performing root cause analysis, and supporting mission-critical operations in fast-paced environments. Skilled in Linux administration, Python automation, incident management, technical documentation, and system support. Currently expanding expertise in cybersecurity, cloud technologies, networking, and AI through professional certifications and ongoing Cloud and Network Engineering studies. Recognized for strong analytical thinking, problem-solving abilities, and a commitment to protecting systems, data, and operational integrity.

SKILLS

Root Cause Analysis	<i>Expert</i>	Documentation Practices	<i>Expert</i>
Incident Management	<i>Expert</i>	Stakeholder Communication	<i>Expert</i>
System Performance	<i>Expert</i>	Problem Solving	<i>Expert</i>
Technical Support	<i>Expert</i>	Jira	<i>Expert</i>

EMPLOYMENT HISTORY

❖ Systems Support Operations Engineer, Tesla Mar 2024 — Aug 2025

Supported application and system operations through comprehensive analysis of system behaviour and performance. Conducted root cause analysis on 200+ monthly incidents, utilising system data and logs to diagnose issues. Evaluated operational needs to translate them into effective technical actions. Delivered customer support to internal stakeholders, resolving issues and providing clear next steps.

- Analysed system data and logs to identify and resolve application issues.
- Implemented corrective actions to ensure optimal system performance and availability.
- Documented and tracked incidents in ticketing systems for accurate traceability.
- Communicated technical findings to diverse audiences effectively.

❖ Control Room Operator, Tesla Feb 2022 — Mar 2024

Oversaw control room operations, ensuring efficient response to customer support issues. Utilised structured problem-solving to identify inconsistencies and implement solutions. Maintained accurate records of incidents and resolutions, enhancing accountability. Collaborated with stakeholders during critical situations to facilitate effective communication.

- Enhanced operational efficiency through timely issue resolution.
- Documented incidents and actions to uphold accuracy and accountability.
- Fostered stakeholder communication in high-pressure scenarios.

❖ Seaport Terminal IT Field Engineer, Strategic Service Solutions Inc Sept 2021 — Feb 2022

Managed application and system environments by troubleshooting hardware, software, and network issues. Analyzed configurations and system data to identify root causes of system problems. Delivered customer support by resolving user issues and clearly explaining solutions. Documented service requests and resolutions per organizational standards.

- Diagnosed and resolved over 100 technical issues monthly.
- Enhanced user satisfaction through effective communication and support.
- Streamlined documentation processes, improving efficiency by 20%.

❖ **IT Systems and Networking Intern, Acuitus Inc** Feb 2021 — Sept 2021

Analyzed and resolved complex technical issues through systematic problem-solving. Documented investigative steps and findings per reporting standards. Supported system configuration, testing, and troubleshooting processes. Communicated insights clearly to team members and supervisors to enhance knowledge sharing.

- Resolved technical issues, improving system performance.
- Documented processes to ensure compliance with reporting standards.
- Supported testing and troubleshooting, enhancing overall efficiency.
- Collaborated with team to facilitate knowledge sharing.

❖ **Lead Produce Receiver, Good Eggs** Jun 2020 — Sept 2021

Oversaw daily operations for a 5-member team, ensuring accuracy and efficiency in line with quality standards. Monitored workflows, identifying inefficiencies and implementing improvements to reduce defect rates. Trained team members on procedures and performance standards to enhance compliance. Communicated operational priorities and changes effectively to team and leadership.

- Improved operational consistency through process enhancements.
- Reduced product defect rates by streamlining workflows.
- Ensured strict adherence to quality and safety standards.
- Fostered team compliance with organizational policies.

❖ **Assistant Manager, Pizza Hut** May 2019 — Jun 2020

Supervised daily operations, ensuring adherence to procedures and service standards. Hired and trained employees, aligning performance with operational expectations. Scheduled staff, assigned duties, and monitored performance for efficiency. Managed payroll and administrative documentation with precision.

- Resolved customer concerns through effective evaluation and resolution strategies.
- Enforced safety and health policies to ensure compliance and service delivery.

EDUCATION

❖ **Western Govern University** Jul 2026

Cloud and Network Engineering

❖ **IBM SkillsBuild** May 2026

Artificial Intelligence Fundamentals

❖ **Linux Professional Institute** Feb 2024

Linux Essentials

❖ **Google** Aug 2022

IT Automation with Python

❖ **Google** Oct 2021

IT Support

❖ **COMPTIA** Jan 2021

A+ Certification
